

# Alfonso Gómez-Jordana Mañas

---

## Education

- Sept 2009 - **Double Degree in Computer Engineering and Business Administration**, *Carlos III University*, Madrid, *Current avg grade: 9.5/10.*  
June 2015 (expec.) Top of the class, special distinction currently in 30 courses
- Sept 2007 - **Bachillerato (upper High School) diploma**, *Everest School and Aitana School*, 9.8/10.  
June 2009 Graduated with honors and was given a merit award in both schools

## Professional Experience

- May 2012 - **Freelance web and mobile developer**, at *Cloudspokes.com*, username: *alfongj*.  
currently Did several web and mobile development projects for Cloudspokes.com. [Click here](#) for an updated list of projects I've participated in
- March 2012 - **President**, *Imagineware*, Madrid.  
currently Imagineware is a student association for mobile and web development learning.  
As president, I have had the tasks of helping organise more than 10 events (such as workshops, contests, meetings...), getting new members, designing marketing campaigns, searching for and speaking with possible sponsors, etc.
- Nov 2012 - **Android freelance developer**, for *IT&IS*.  
Feb 2013 Developed Android mobile and tablet version of app "[Todas Mis Recetas](#)", with a current (March 2013) rating of 4.6/5 and more than 100.000 downloads
- May 2012 - **Mentor**, for *Google Summer of Code*.  
Aug 2012 Mentored a student during the summer to develop several improvements on a web application for the Gambit Project, all under the Google Summer of Code program. Also attended Google's HQ in Mountain View in Oct 2012 for the Mentor Summit
- Nov 2011 - **CTO and sole developer**, *Groupject*, Madrid.  
Jan 2012 Groupject was a social project management platform that participated in the startup 'preaccelerator' Tetuan Valley.  
I had to develop both the front-end (HTML5, jQuery) and back-end (Play! Framework, PostgreSQL, Heroku hosted) of the application.
- May 2011 - **Student developer**, in *Google Summer of Code*.  
Aug 2011 Spent 3 months improving the Game Theory Explorer web application for the Gambit Project organization, under the Google Summer of Code program
- Jan 2010 - **Research assistant**, *GIAA, Carlos III University*.  
Dec 2010 Helped to research for an article in evolutionary algorithms
- Before 2010 **Occasional jobs**, Madrid and Alicante, Spain.  
Have been several times student tutor and shop assistant at a family business
