Alfonso Gómez-Jordana Mañas

Education

Sept 2009 - July 2015
Degree in Computer Engineering, *Carlos III University*, Madrid, *GPA: 9.64/10.*
Obtained special distinction (A+, MH) in 183 out of a total of 240 credits

Sept 2009 - July 2015
Degree in Business Administration (simult. with previous), *Carlos III University*, Madrid, *GPA: 9.45/10.*
Obtained special distinction (A+, MH) in 129 out of a total of 240 credits

Aug 2013 - May 2014
Exchange student in Business Administration (at Haas Business School) and Computer Science, *UC Berkeley*, Berkeley, CA, *GPA: 4.0/4.0.*
A+ and/or top of the class in all CS courses, 40% of Business Admin courses

Professional Experience

Oct 2015 -
Associate Product Manager in Identity, *Google*, Mountain View.

Aug 2014 - Nov 2014
Software Engineering Intern in Android, *Facebook*, Menlo Park.
Developed single handedly, from scratch, to functional beta, a technically challenging new feature of the main FB Android app. Helped onboard more people to the team to continue after my leave.

May 2014 - Aug 2014
Associate Product Manager Intern, *Google*, Mountain View.
Coordinated a team of 10 (inc. engineering, UX and other areas) to bring the new "No Captcha" reCAPTCHA from prototype to public beta launch.

Jan 2014 - May 2014
Research assistant, *UC Berkeley*, Berkeley, CA, AKAROS project.
Helped elaborate a testing framework and set up a Jenkins CI server for the project.

June 2013 - Aug 2013
Engineering Intern, *SQE, Google*, Dublin.
Helped improve user experience of internal tools by developing a usage analytics framework and analyzing a sample of extracted data.
Ellaborated business-intelligence statistical reports to help optimize some team processes.

May 2012 - May 2013
Freelance web and Android developer, *Cloudspokes.com, IT&IS, others.*
Delivered over 10 projects as a freelance (with a combined billing of around $10K) for a wide variety of clients, using technologies such as Android, Play Framework or jQuery.

March 2012 - May 2015
President, *Imagineware*, Madrid.
Imagineware is a student association for mobile and web development learning.
As president, I have had the tasks of helping organise events (workshops, contests, meetings...), getting new members, designing marketing campaigns, seeking for sponsors, etc. During my time in the organization, we grew from 0 to around 30 active members.

May 2012 - Aug 2012
Mentor, *for Google Summer of Code.*
Mentored a student to develop several improvements on a web application for the Gambit Project

Nov 2011 - Jan 2012
CTO and sole developer, *Groupject*, Madrid.
Groupject was a social project management platform that participated in the startup 'preaccelerator' Tetuan Valley.
I developed both front-end (HTML5, jQuery) and back-end (Play! Framework)

May 2011 - Aug 2011
Student developer, *in Google Summer of Code.*
Spent 3 months improving the Game Theory Explorer web application for the Gambit Project organization, under the Google Summer of Code program

Jan 2010 - Dec 2010
Research assistant, *GIAA, Carlos III University.*
Helped to research for an article in evolution strategies

Languages

Spanish	**Native**	
English	**Proficient**	*TOEFL (108/120), Cambridge Advance (A) & BEC Vantage (A), Trinity 10*
German	**Basic**	*4 years at high school (avg grade: A)*

Extracurricular achievements and activities
