Alfonso Gómez-Jordana Mañas

Education

Aug 2013 - May 2014
Exchange student in Business Administration (at Haas Business School) and Computer Science, *UC Berkeley*, Berkeley, CA, *GPA: 4.0/4.0.*
A+ and/or top of the class in all CS courses, 40% of Business Admin courses

Sept 2009 - June 2015 (expec.)
Double Degree in Computer Engineering and Business Administration, *Carlos III University*, Madrid, *Current avg grade: 9.5/10.*
Top of the class, special distinction (A+) currently in 37 courses

Professional Experience

Aug 2014 - Nov 2014.
Software Engineering Intern in Android, *Facebook*, Menlo Park.
Developed, from scratch, to functional version ready for public testing, a technically challenging new feature of the main FB Android app. This project had been commissioned by the CEO.

May 2014 - Aug 2014
Associate Product Manager Intern, *Street View, Google*, Mountain View.
Coordinated a team of 10 (which included Engineering, UX and other areas) to bring the new "No Captcha" reCAPTCHA from prototype to public beta launch.
Elaborated a proposal (after extensive market research), for an ambitious long term initiative for Street View.

Jan 2014 - May 2014
Research assistant, *UC Berkeley*, Berkeley, CA, AKAROS project.
Helped elaborate a testing framework and continuous integration server (using Jenkins).

June 2013 - Aug 2013
Engineering Intern, *SQE, Google*, Dublin.
Helped improve user experience of internal tools by developing a usage analytics framework and analyzing a sample of extracted data.
Ellaborated a business-intelligence statistical report that could potentially lead to important time savings for the team.

May 2012 - May 2013
Freelance web and mobile developer, *at Cloudspokes.com*.
Did several web and mobile development projects in Cloudspokes.com. List of projects

March 2012 - currently
President, *Imagineware*, Madrid.
Imagineware is a student association for mobile and web development learning.
As president, I have had the tasks of helping organise events (workshops, contests, meetings...), getting new members, designing marketing campaigns, seeking for sponsors, etc.

Nov 2012 - Feb 2013
Android freelance developer, *for IT&IS*.
Developed "Todas Mis Recetas app" for Android, with a rating of 4.6/5 and more than 100.000 downloads, as of March 2013

May 2012 - Aug 2012
Mentor, *for Google Summer of Code.*
Mentored a student to develop several improvements on a web application for the Gambit Project

Nov 2011 - Jan 2012
CTO and sole developer, *Groupject*, Madrid.
Groupject was a social project management platform that participated in the startup 'preaccelerator' Tetuan Valley.
I developed both front-end (HTML5, jQuery) and back-end (Play! Framework)

May 2011 - Aug 2011
Student developer, *in Google Summer of Code.*
Spent 3 months improving the Game Theory Explorer web application for the Gambit Project organization, under the Google Summer of Code program

Jan 2010 - Dec 2010
Research assistant, *GIAA, Carlos III University*.
Helped to research for an article in evolution strategies

Majadahonda, Madrid – Spain
